# CORNERS

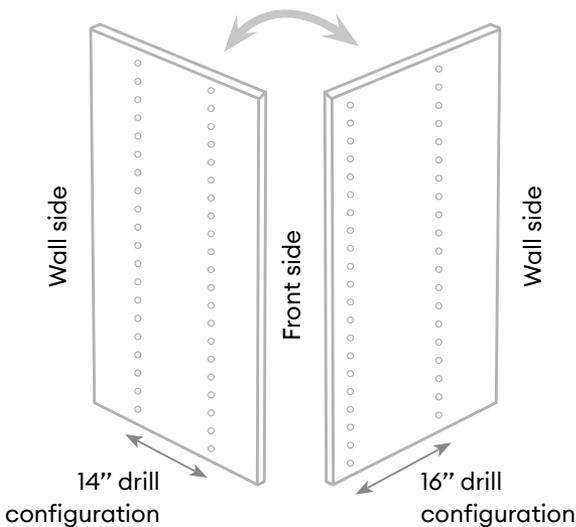

Matinno Simply Closets introduces a simple solution for corners by directly connecting the shelves of a module without side panel, to another module.

Here is an illustration on how to drill the connection holes.

## Illustration

-  Mark the holes to drill, **measuring from the panel side** (Not the end of the shelf).
-  Drill the holes to the shelf front edge.
-  Insert two fixed pins.
-  Assemble the shelves to connect both modules.
-  Make sure the shelves are flush with the side panel edge.
-  Fix the toe kick using a corner bracket.

## MATCH PANEL 14" / 16"

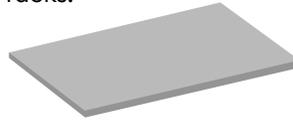

For tight spaces, Matinno Closets offer a 14" depth option that transitions to 16" depth to include drawers. To that effect, we offer a match panel pre-drilled for 14" depth configuration in one side and 16" depth configuration in the other.

## DESIGN EACH MODULE

### Shelves

Choose fixed or height-adjustable options for perfect customization. Install them flat or tilted to turn them into convenient shoe racks.

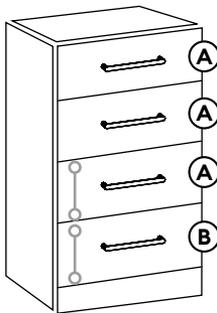

### Drawers

Maximize storage without compromising clean lines. The ultra-thin profile and concealed full-extension slides create a sleek, minimalist look with full interior access. Enjoy buttery-smooth, whisper-quiet operation for effortless daily use. Available for 16", 19" and 24" depth.

#### 2 configurations:

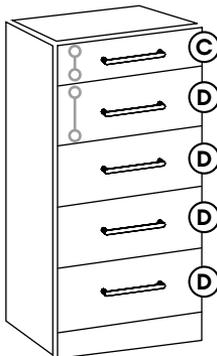

(A) 10 11/16" height

(B) 9 15/16" height

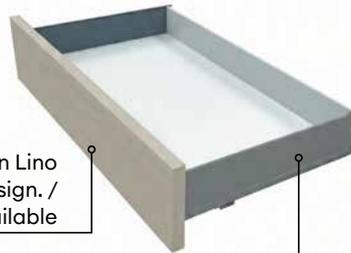

(C) 5 5/8" height

### Wall paneling / Backing

Matinno Closets don't offer the traditional backing panel. Instead, matching panels on 4' x 9' and 8 mm thickness are offered as a wall paneling solution before installing the closet. This solution allows for complete integration of the closet and an overall nicer look.
